

MR. GREEN PACKAGE

The green screen is the steady solution setting the stage for truly immersive broadcasting in a matter of seconds. Ideal for small workspaces, all you need is top of the notch three-key lighting and a good audio kit. To update the Mr. Green solution a little, we added AR (Augmented Reality), offering the possibility to add 3D generated content and composite it over a live background view resulting in an appearance of content sitting in (or augmenting) the real world.
